INTRODUCTION

- Bright-TV generates large amounts of viewership data through its television channels and digital viewing activities.
- This analysis was conducted to transform raw viewership and user-profile data into meaningful business insights that can help management understand **who watches Bright-TV, what they watch, when they watch, and where they are located.**

ABOUT BRIGHT-TV

Vision

To become a leading television entertainment platform that understands its audience and delivers relevant, engaging and high-quality content to viewers across South Africa.

Mission

To provide diverse and engaging television content while using audience insights and data to continuously improve the viewing experience

OUR SERVICES

ANALYSIS

Total active viewers per month and daily

The analysis reveals a **strong upward trend in Bright-TV viewership between January and March**. Viewership increased from approximately: **17,483.36 → 50,335.38**. This represents an increase of approximately **188%** from January to March.

Monday appears to be a **lower-engagement day**, while viewer activity becomes stronger as the week progresses. This could indicate that viewers have different routines at the beginning of the working week compared with later in the week.

Total active viewers per region

TOTAL ACTIVE VIEWERS PER REGION

Gauteng's strong performance suggests that Bright-TV has a particularly strong audience presence in South Africa's largest and highly urbanised economic region.

Western Cape also demonstrates strong viewer engagement, making it another important market for Bright-TV.

Northern Cape's lower viewership indicates an opportunity to investigate.

Total active viewers per gender and race

TOTAL ACTIVE VIEWERS PER GENDER

TOTAL ACTIVE VIEWERS PER RACE

Bright-TV's audience is strongly represented by **younger viewers, particularly within the Black audience segment.**

This suggests that Bright-TV's content is resonating strongly with younger and culturally diverse audiences.

WEEKDAY VS WEEKEND VIEWERSHIP

This indicates that Bright-TV's audience is more active during the working week. The behaviour may be influenced by viewers following regular weekday routines and watching television during specific periods such as afternoons and evenings

Viewer activity changes significantly according to the time of day. The low midnight activity suggests that fewer viewers are actively watching during very late-night hours.

TV- CHANNEL PERFORMANCE BY RACE AND DAILY VIEWERS

The strong performance of the ICC Cricket World Cup 2011 suggests that **major live/sporting events can attract significant audience attention.**

The strong performance of Trace TV among Black viewers suggests that **music and entertainment content are important viewing interests within this audience segment**

TV-CHANNEL PERFORMANCE PER GENDER AND MONTHLY

TOTAL TV_CHANNEL VIEWERS PER GENDER

The strong performance of live events and cricket suggests that **sports and event-based programming are major engagement drivers among male viewers**

TOTAL TV_CHANNEL VIEWERS PER MONTH

The **ICC Cricket World Cup 2011** was the strongest-performing programme/content during March.

Interpretation

March's strong performance suggests that particular high-interest programming significantly contributed to overall audience engagement.

VIEWER'S DURATION

The fact that viewers spending more than 60 minutes represent the strongest group is a positive indicator of **viewer engagement and content retention**. Longer viewing sessions suggest that viewers are not simply visiting the platform briefly—they are remaining engaged for meaningful periods.

KEY INSIGHT SUMMARY

-  **1. Viewership is growing** - January → March shows significant audience growth.
-  **2. The audience is predominantly male** - Male viewers consistently outperform female viewers.
-  **3. Gauteng is the strongest region** - Gauteng leads regional viewership, followed by Western Cape.
-  **4. Young adults are the core audience** - Young adults represent the largest age group.
-  **5. Major events drive engagement** - ICC Cricket World Cup 2011 was the strongest-performing content.
-  **6. Music and live entertainment are important** - Trace TV and Live Events perform strongly among major audience segments.
-  **7. Viewing is strongest outside midnight** - Morning, afternoon and evening periods provide stronger engagement.
-  **8. Long viewing sessions are dominant** - More than 60 minutes is the strongest screen-time category.

BUSINESS RECOMMENDATIONS

- **1. Invest in High-Performing Content**
 - Increase investment in content categories that consistently attract viewers, particularly **live events, sports and entertainment**.
- **2. Strengthen Evening Programming**
 - Since evening viewing is strong, Bright-TV should place premium/high-interest programmes during this period.
- **3. Develop the Young Adult Audience**
 - Young adults are the largest audience segment.
 - Bright-TV should strengthen:
 - Music
 - Entertainment
 - Digital campaigns
 - Youth-oriented programming

BUSINESS RECOMMENDATIONS CONT....

4. Target Gauteng & Western Cape

- Use targeted:
- Advertising
- Promotions
- Events
- Partnerships

• 5. Improve Female Engagement

- Male viewers dominate the current audience.
- Bright-TV should investigate content gaps and develop programming that attracts more female viewers without reducing male engagement.

• 6. Address Low-Performing Days

- Monday and weekends show weaker engagement.
- Use these periods to test:
- New programmes

Conclusion

- The Bright-TV Viewership Analysis provides a clear picture of how audiences interact with Bright-TV across **time, regions, demographics, channels and viewing duration**.
- The most important finding is the **strong growth in viewership from January to March**, indicating increasing audience engagement.
- The analysis also identifies a core audience characterised by:
- **Male viewers + Young Adults + Strong Gauteng presence + High engagement with live events, sports and entertainment.**
- At the same time, the data highlights opportunities to improve:
- Female engagement
- Weekend viewership
- Monday performance
- Northern Cape reach
- Underperforming content

THANK YOU
